

SADDLE STITCHED BOOKLETS:

When creating artwork for saddle stitched booklets please keep in mind, artwork must be supplied :

1. Artwork must be supplied with 3mm bleed on all edges and be sized correctly.
2. Please send through the file as 1 total file. All artwork pages in the file must be 1up. Please do not send artwork imposed.
3. Please make sure the front cover is the first page and the back cover is the last page in the file.
4. Please make sure your artwork has the correct number of pages. All saddle stitch files must be in multiples of 4 for example if your book only has 15 pages you will need to add a blank page to the back to make it divisible by 4.
5. We recommend that you do not enter text or complex images over the spread due to slight variations in printing.
6. All files must be sent in a print ready PDF in CMYK only.
